An Innovative Approach to Outsourced Engineering & CAD Services

WHY WE'RE DIFFERENT

Miller Consulting Group is an established US-based Outsourced Engineering & CAD services company that was founded on the concept of specialization. Whether it is a large project, requiring several resources or a strategic outsource strategy, Miller has and continues to deliver customized, high value solutions for its clients since 1999.

THE FUTURE

Miller Consulting's Center of Excellence is a modern high tech apprentice program. We utilize proven processes to develop our talent, so the quality of our work is consistently good and the cost savings significant.

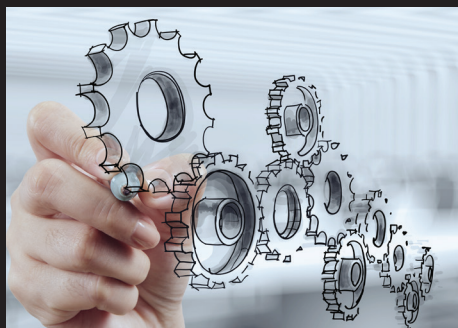

ADVANCED ANALYTICS

We utilize advanced sets of data to assist us in right sizing our staff, firm quoting projects and applying Lean Principles. You can appreciate this through the value of our service or through our consulting and training programs.

MENU OF SERVICES

- Mechanical Engineering
- FEA
- Industrial Design
- Mechanical Design
- Model & Drawing Creation
- Revisions
- Training-PLM, CAD, GD&T
- Consulting

INDUSTRIES SERVED

- Aerospace & Defense
- Automotive
- Consumer Products
- Medical Device
- Tech Start-Ups

WHY CONTRACT STAFFING IS POOR SPEND AND MAKES IT HARDER TO STAY ON SCHEDULE

Staffing companies take an average of 4 weeks to fill each spot and their turnover rate is over 30%. A project requiring 12 resources or more will lose 64 weeks just due to on-boarding and turnover.

THE VALUE OF AN ENGINEERING PARTNER

An outsource partner will provide better quality, consistency, and speed than contract staffing and will be an investment instead of an expenditure. We will consult with you on developing a plan that will give you the resources you need to stay lean and agile.

Miller Consulting Group Budget Analysis

Contact us to discuss your budget spent on the following:

- Direct Labor Staff
- Supervision
- Contract Employees
- Off-Shore Services
